

Experiment 8

1. BMI Calculator page: two inputs (weight kg, height m), a button, and a result div showing BMI + category (if/else) with colour-coded feedback.
2. Cricket over simulator: array of 6 random runs (0–6), print ball-by-ball commentary with a loop, and compute total + strike rate with reduce.
3. Student object manager: array of 4 student objects {name, marks}; functions to (a) print all, (b) top scorer, (c) class average, (d) add new student from prompt().
4. Dark-mode toggle: a button that switches body classes and saves nothing (state in a variable) — style both modes in CSS.
5. Digital clock: show live HH:MM:SS in a heading, updating every second (research setInterval).

BMI Calculator page: two inputs (weight kg, height m), a button, and a result div showing BMI + category (if/else) with colour-coded feedback.

BMI Calculator

Weight (kg):

Height (meters):

Calculate BMI

Your BMI is 29.05
Category: Overweight

Cricket over simulator: array of 6 random runs (0–6), print ball-by-ball commentary with a loop, and compute total + strike rate with reduce

Cricket Over Simulator

Simulate Over

Ball-by-Ball Commentary:

Ball 0.1: 5 runs — 5 run(s) taken.

Ball 0.2: 1 runs — 1 run(s) taken.

Ball 0.3: 1 runs — 1 run(s) taken.

Ball 0.4: 1 runs — 1 run(s) taken.

Ball 0.5: 1 runs — 1 run(s) taken.

Ball 0.6: 1 runs — 1 run(s) taken.

Over Summary: [5 | 1 | 1 | 1 | 1 | 1]

Total Runs Scored: 10

Batter Strike Rate: 166.67

Student object manager: array of 4 student objects {name, marks}; functions to (a) print all, (b) top scorer, (c) class average, (d) add new student from prompt().

Student Object Manager

1. Print All Students

2. Top Scorer

3. Class Average

4. Add New Student

Output Console:

```
--- CLASS AVERAGE ---  
Total Students: 4  
Class Average Marks: 87.50
```

Dark-mode toggle: a button that switches body classes and saves nothing (state in a variable) — style both modes in CSS.

Light Mode Active

This page toggles theme classes on the `<body>` element without saving state to local storage (state stored in a JS variable).

Switch Theme

Dark Mode Active

This page toggles theme classes on the `<body>` element without saving state to local storage (state stored in a JS variable).

Switch Theme

Digital clock: show live HH:MM:SS in a heading, updating every second (research setInterval).
